

Stefan Cucuta

Registered General Nurse

Senior Consultancy Nurse

Co-Founder of Medcare Solutions - Nursing Consultancy Services

Professional Goals

I am to develop my nursing skills and knowledge by learning more about the social care industry. I believe that engaging with people is the best way to help people and through that, I can bring myself as a whole into task performing which I believe would widen my perspective and knowledge.

Baron Court, PE4 7ZF Barchester Healthcare

Personal profile

I would like to describe myself as a very passionate person when it comes to care and nursing. I am strong and highly resistant to stress. I am highly motivated to enhance my knowledge and nursing skills to become the best of me and stand out there and make a difference in the service I work and in the people's life I interact with and care for. Being a nurse is not a job for me, but a

gift that I gladly share with those who need well-being care. I am a hard worker and quick learner with a good level of speaking and writing English. I respect my workplace and I am also a team player enjoying exchanging knowledge and skills with other colleagues. I am fully aware that there is no perfect workplace, however, if there is something that can be improved, I know that first of all should be for the benefit of those accessing the service and then for those who work.

Strengths

- Communication
- Critical thinking
- Stress resistant
- Empathic
- Team player
- Strong organising skills
